ii) Pass	3NT	2♥

3. Explain in your own words the difference between a 1NT opening bid and a 1♥ opening bid.

1♥ promises between 12 & 19 points and could be any shape with at least 4 hearts.

1NT is balanced and 12-14 points and is much more specific.

4. Why do you always pass as responder after partner's 1NT opening, when you have a balanced hand and 10 hcp?

Because 1NT has 14 HCP at the most so there cannot be enough for game.

5. Why do you never pass as responder after partner's 1♠ opening, when you have a balanced hand and 10 points?

1♥ could be up to 19 so there is every chance that you could have the combined values for game.
